COMPANY OVERVIEW

Livewired Electrical was established in August 2006 by owners Nick Payne and Grant Spies. Over the years, Livewired and its staff have ventured down many different avenues of work, giving them a wide variety of experience.

During the first few of years, Livewired focused mostly on domestic, small commercial installations and maintenance.

More recently, Livewired has expanded into also completing large commercial, solar, industrial, communications and air conditioning projects. We now have teams that can cater for any job, no matter how big or small.

"We have transformed our company structure in a way that gives us the ability to take on any project that comes our way. We now have management, recruitment, quality assurance, training and reviewing systems in place that allows our company to mould into the shape that it needs to be at any given time."

Grant Spies – Director at Livewired Electrical

All of the above experiences have helped Livewired to grow to a strong and successful electrical contracting business, with a view for growing into the future.

“Our main-focus is people; the people who work for us and the people who we work for. If both parties are happy, then that creates good outcomes.”

Nick Payne - Director at Livewired Electrical

OUR PEOPLE

Livewired Electrical, founded in August 2006 by the dynamic duo of Nick Payne and Grant Spies, has evolved from its modest origins as '2 guys in a ute' to become a thriving enterprise with a team of over 20 dedicated individuals. Our growth is a testament to our commitment to excellence, unwavering work ethic, and the trust placed in us by our clients.

What sets Livewired apart is not just the sheer number of our team members but the diverse and skilled professionals who make up our workforce. Our team comprises fully qualified electricians, apprentices, and essential office staff, each contributing their unique expertise to ensure the success of every project we undertake.

Our team of electricians brings a wealth of experience and knowledge to every job, ensuring that we meet and exceed the expectations of our clients. From routine electrical maintenance to complex installations, Livewired's skilled technicians are equipped to handle a wide range of tasks, delivering top-notch service with precision and efficiency.

As a company, Livewired Electrical is not just about technical expertise; we are equally dedicated to fostering a positive and collaborative work environment. We believe in investing in the growth and development of our team, ensuring that they stay up-to-date with the latest industry advancements and are equipped to tackle the challenges of the ever-evolving electrical landscape.

Livewired takes pride in its commitment to safety, quality, and customer satisfaction. Our team is driven by a passion for delivering exceptional electrical solutions while adhering to the highest industry standards. Whether it's a residential, commercial, or industrial project, Livewired Electrical is the name you can trust for reliable, professional, and innovative electrical services.

Nick Payne

COMPANY DIRECTOR, MANAGER OF SERVICE, MANAGER OF SOLAR, MANAGER OF SMALL COMMERCIAL PROJECTS

Since Livewired's inception in 2006, the domestic/commercial installation and maintenance sector has gone from strength to strength under Nicholas Payne's management. With over 23 years of experience within the electrical industry Nicholas has a wide range of knowledge in managing domestic installations and maintenance, commercial installations and maintenance, solar, air conditioning and event power. This managerial role also includes completing quotes for domestic/commercial clients, electrical design and quality control.

Grant Spies

COMPANY DIRECTOR, MANAGER OF COMMERCIAL, MANAGER OF COMMUNICATIONS

As director and lead project manager, Grant Spies has in-depth understanding of the industry and practical application of delivering complex projects. Grant has consistently had the vision, skills and knowledge to face the challenges to guarantee projects are completed successfully and to a high standard. His ongoing positive relationships with employees, suppliers and subcontractors ensure unity among the wider project team so that a common goal can be achieved. In addition to the project managerial tasks, he also engages in other activities including tendering, issuing quotes, and the development and implementation of quality checklists and commissioning documents.

CAPABILITIES

In this ever-changing world, Livewired has diversified over the years to ensure that we can cater for all electrical needs. We have the capabilities to perform all aspects of the electrical industry; not only do we have fully trained and highly skilled workers in our company, but we also have a great relationship with the best sub-contractors throughout Queensland.
